

# Medieval Dentistry

MASOCHISTS OF THE WORLD, LET US PURIFY YOU

Have modern dentists, with their anodyne chemicals and pacifying conversation, pushed you too far? Our humorless professionals do understand the horrors of state-of-the-art palliation, and we want to give you a dental experience the intensity of which you cannot have imagined. No anesthesia. No humor. Rather, our special compounds will heighten your senses and emotions so your experience can become, well, fulfilling. Since no pictures can do justice to our staff, tools, devices, or ambiance, that special experience begins with your very first visit, a guided facilities tour! We do hope it will be as good for you as it has been for us.

Note: We will not fix all your dental problems and, believe us, you will have them. We have found that a little festering goes a long way toward maximizing your next experience.

– Dr. Tomás de Torquemada

"Show your teeth when you frown."
