

# Truth

## *Scott Adams*

**"We don't have a world that works on facts...and you don't want one. You do not want a world that works on facts. It has to work on bullshit. Bullshit is the only thing that keeps us alive. The banking problem is a good example.**

**You don't want to take away the operating system of society, which is lies, exaggerations, promises you can't keep, optimism that isn't accurate.... The moment you think that truth is your goal--you're lost."**
