

Fun Housework

“Why sweep the floor when it looks the same after and before?”

– a wise poet

Doing housework should be fun, but it seldom is. That's because of results. If you do it regularly, your house will stay clean. This means, however, that it looks much the same after each cleaning and you may not really notice the result. This is boring. If you clean a rug once a year though, you'll be amazed. The thrill of taking a gray rug and turning it into a deep navy blue one can take your breath away. Trust me on this one.
