

# A DEBATE

PERSON 1: I'm right because I have evidence.

PERSON 2: It's only evidence in your opinion. I have better evidence.

PERSON 1: It's only better in your opinion.

PERSON 2: I have the facts to back me up.

PERSON 1: From what source? What is their bias?

PERSON 2: They're objective, not biased.

PERSON 1: Who says they're not biased?

PERSON 2: The experts!

PERSON 1: Which experts? What are their qualification? What is their bias?

PERSON 2: They don't have a bias because they're qualified.

PERSON 1: My experts are more objective and better qualified.

PERSON 2: More objective in whose opinion? Better qualified in whose opinion?

## WHERE DOES THIS EVER END?
